

GOTTA GET BETTER IN A LITTLE WHILE

INTRO

VERSE 1

Don't you know what's wrong with me?
I'm seeing things I don't want to see.
Sniffing things that ain't no good for me.
I'm going down fast, won't you say a prayer for me?

CHORUS 1

It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.

The sun's got to shine on my guitar someday.

VERSE 2

Revolution all across the land.
Just like Sly, you got to take a stand.
Please don't hurt nobody, don't knock them down;
Give them a helping hand to get off the ground.

CHORUS 2

It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.

VERSE 3

Still one thing that you can do;
Fall down on your knees and pray.
I know the Lord's gonna answer you.
Don't do it tomorrow, do it today.

CHORUS 3

It's got to get better in a little while.

It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.
